THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED

THIS IS UNEVALUATED INFORMATION

1. [redacted] an organizational chart of the "Hqs" (Upraveleniye) of the Separate Long-Range Reconnaissance Air Regiment (ODRAP).

2. It must be pointed out that the strength computation is based on the premise that the ODRAP is equipped with a type of aircraft which requires a three man crew. If, on the other hand, the ODRAP is equipped with aircraft which require more than a three man crew, the difference must be added to the personnel computation in order to have an exact ODRAP strength picture. There is an MGB Counter-Intelligence Investigator attached to the regiment who is permitted to use the full designation of the regiment on his correspondence. Actually he is not subordinate to the regimental Commander and can arrange his work schedule to suit himself. However, when necessary, the regiment provides the MGB Counter-Intelligence Investigator with a required number of guards and with transportation facilities.

3. The regiment's Chief of the Chemical Service is subordinate to the Regimental Commander according to the TO. Nevertheless, his activities are completely directed by the regimental Chief of Staff in accordance with an old tradition resulting from the fact that until 1950 the Chief of the Chemical Service was subordinate to the regimental Chief of Staff. In 1950, he became subordinate to the regimental Commander.
